1 Introduction

This deliverable “**Preparation and delivery of dissemination reports and informative material**” reports the results of the activities carried out in:

T6.3 Create promotional and dissemination material targeting high school students and society at large (exploiting also media) (Task leader: UL).

This document lists dissemination reports (Chapter 2), as well as materials prepared for promotion and dissemination of information related to the project (Chapter 3). Furthermore, a list of media releases related to the BENEFIT project is given in Chapter 4. Chapter 5 gives a list of the project partners’ web sites that promote the project.

2 Dissemination reports

In order to achieve high visibility of the project results and reach as many stakeholders as possible, a large number of activities for dissemination of results were organized within the project. Until 10 February 2021, 6 open events, 3 seminars, 1 training workshop and 3 webinars were organized. Furthermore, results of the project were presented at 9 conferences as well as at 5 other events. Information about these activities as well as pictures are posted on the project website at https://www.project-benefit.eu/?page_id=19, Facebook <https://www.facebook.com/Benefit-Erasmus-Project-104684454391822/> and reports related to these events were uploaded to the project Intranet system Confluence.

Table 1 presents information about reports on dissemination events organized in the scope of the BENEFIT project activities. The column “Report” indicates if the report is prepared and uploaded to the Confluence.

3 Promotional materials

In order to promote the BENEFIT project, several promotional materials were prepared, some of which were printed and some were disseminated in electronic format. Table 2 summarizes information about the promotional material prepared by 1 September, as well as those that will be prepared by the end of the project. The column “Status” indicates if the material is already prepared, or if it yet needs to be prepared.
